

ATLAS

STAMPING & MANUFACTURING

Why Choose Atlas as your partner for all your precision metal stamping needs?

Atlas Stamping & Manufacturing Corporation, a woman-owned business (WOB) has delivered high-quality metal stamping components and fabrication for over 70 years. Atlas creates unique partnerships with our Aerospace, Commercial and OEM customers, our employees and suppliers, to provide cost-effective solutions that do the job right, the first-time, on-time, every time.

Atlas produces a full range of precision metal stamped seals, gaskets, washers, brackets and shims. We also provide assemblies, tool making, tool design and ancillary services like value-added brazing, plating, coating, and heat-treating. Atlas has the capability to stamp nickel, titanium, stainless steel, cobalt alloys aluminum and high temperature specialty metals that meet a great variety of product requirements.

Our Atlas team takes great pride in our product quality, our superb on-time delivery metrics and our commitment to Continuous Improvement through LEAN manufacturing and 5s processes.

FORMS OF WORK

Stampings/Assemblies

- Assemblies
- Brackets/Assemblies
- Gaskets
- Shims-Seals
- Washers

Services

- Antigall
- Laser/Laser Welding
- NDT Inspection
- Paints
- TIG Welding

Material Capabilities

Low Carbon Alloys
to High Temp Alloys including
Titanium

Ranges

Gauges from .001" to .125"
Optimal Lot Sizes from 500 to
20,000 pieces
LTA's (3 Years)

What Makes Us Different

We provide solutions, not just parts. For over 70 years, our operating philosophy has been to always provide the highest quality products and stellar customer service.

Our mission statement, "Do the job right the first time, on time, every time," guides our entire operation. Through a focus on customer requirements, a strong and certified Quality Management System, a Continuous Improvement culture and a commitment to customer satisfaction, we strive to be a preferred supplier of precision metal stampings.
